

F3015BE

双驱板管激光切割机

DOUBLE DRIVE SHEET METALS AND PIPES FIBER LASER CUTTING MACHINE

适用材料/Applicable materials

专业用于切割碳钢板(管), 不锈钢板(管), 镀锌板(管), 电解板(管), 硅钢等多种薄金属材料。
Professional for cutting carbon steel plate (tube), stainless steel plate (tube), galvanized sheet (tube), electrolytic plate (tube), silicon steel a variety of thin metal materials.

性能技术参数

Performance technical parameters

激光输出功率	Laser power	1000W-2000W
激光品牌	Laser model	光纤激光器
板材加工精度	Work rate	3000mmx1500mm
切割行程	X轴行程	3050mm
切割行程	Y轴行程	1520mm
切割厚度	Cut thickness	0.5-22mm
定位精度	Geometric positioning accuracy	±0.08mm/m
最大空程速度	Max Acceleration speed	100m/min
空程加速度	Acceleration speed	0.8G
加工加速度	Processing acceleration	0.6G
重复定位精度	Repeatability accuracy	±0.05mm
额定功率	Power	280V/30A 22kw(380V/100A)
整机重量	Weight	6000KG
外形尺寸	Dimension	5000x3200x1900mm

激光切割机优点/Fiber Laser Cutting Machine Advantages

高性能, 进口德国IPG光纤激光器, 性能稳定, 使用寿命可达10万多小时
Adopt German IPG brand China famous Raycus Laser sources, High and stable function, lifespan is over 100,000 hours
可加工市场流行的方管, 圆管, 铝方管
Processing market conventional circular tube, square tube, rectangular tube
配有专业夹头装置, 对不同形状大小尺寸的管材均可进行精密加工
Equipped with professional chuck fixture, precision machining of the pipe can be of different shapes and sizes
采用进口伺服电机和减速机, 切割精度高
Imported servo motor and gearing system to guarantee high precise cutting
